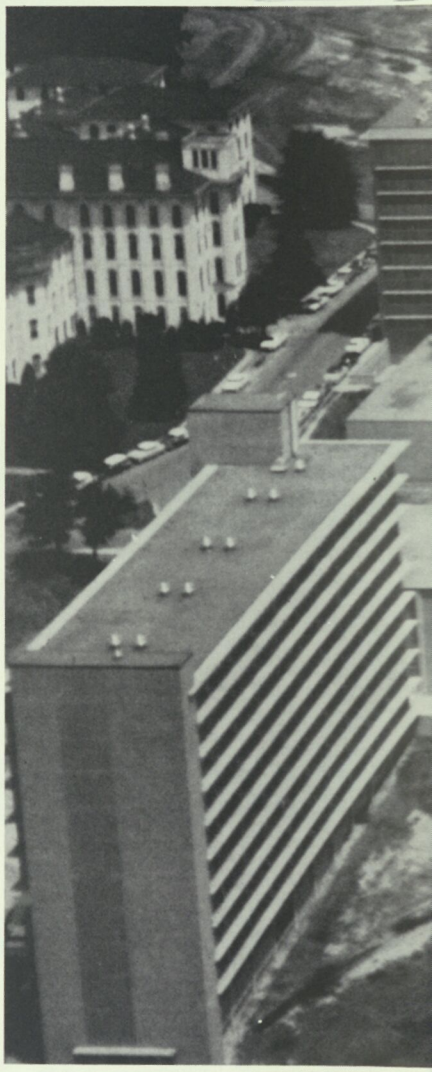
Foreword



The publication of the 1962 CADUCEUS was hindered by total chaos, Acts of Providence, and finally by the acute onset of Spring Holidays. However, we have triumphed, as even the most pedantic disciples of David Hume may perceive, and produced an object subject to sight, touch, and by the less esthetically oriented to the senses of taste and smell as well.

We must admit that the background paintings found in the faculty sections are not our own work but are part of a continuing series by Parke Davis and Company entitled "A History of Medicine in Pictures" and by whom they are copyrighted. The project is written and directed by George A. Bender, painted by Robert A. Thom.

In passing it may be mentioned that what began as a flirtation with a hopefully bountiful coquette ended as drudgery with a demanding, consuming shrew. This relationship, hopefully, has now ceased with this as its product. We would hope that it reflects the earlier portion of our relationship and not the latter.

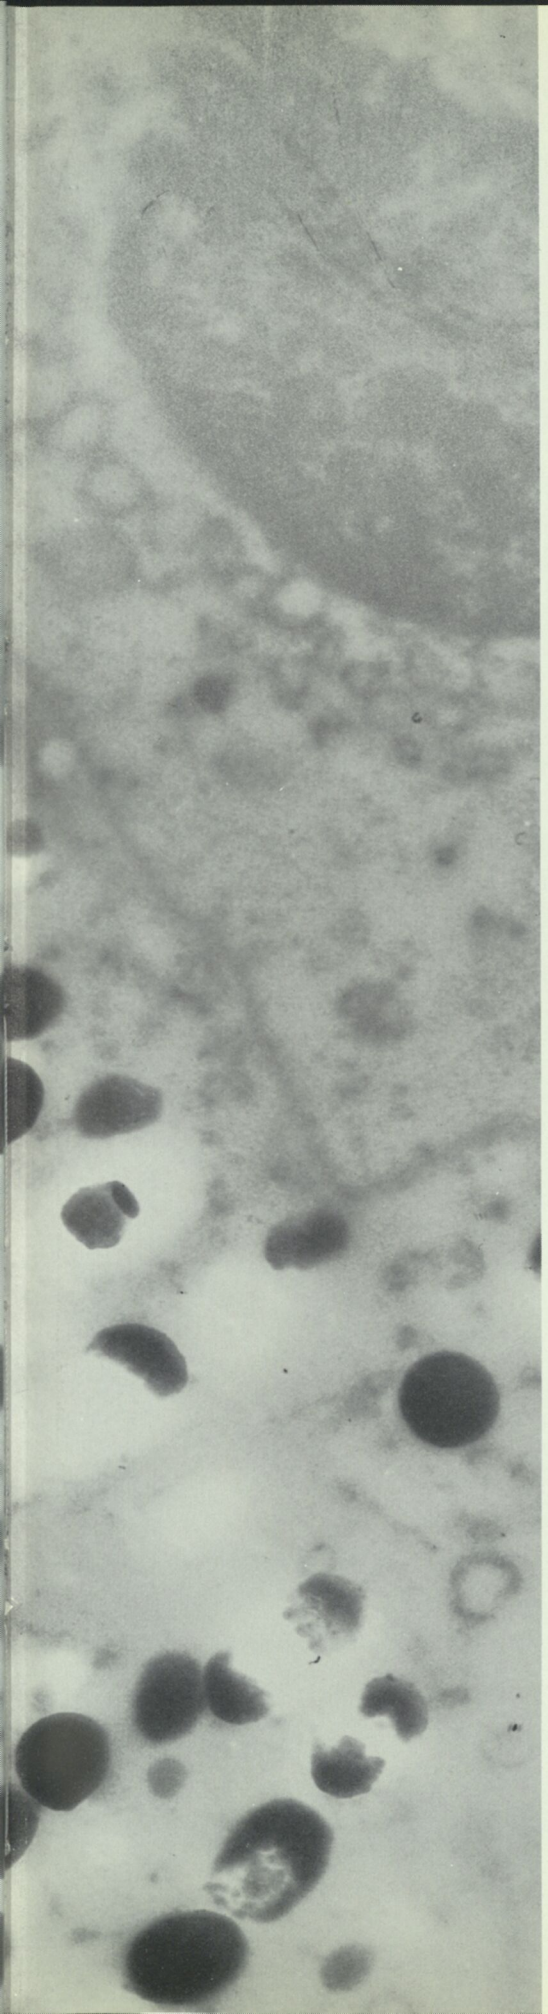
SCHOOL OF PHARMACY



The students of the School of Medicine wish to dedicate their portion of the 1962 CADUCEUS to Dr. Robert Abernathy. For his dedication to teaching; his knowledge of medicine; his erudite discussions; his patient understanding; his accessibility; his sincere belief in the dignity of man; his expressful gestures; and for his acceptance of medical students as also being human we are profoundly grateful.

The students of the School of Nursing wish to dedicate their portion of the 1962 CADUCEUS to Mrs. Claudia Watson. It has been evident that the "basic underlying principle" is her guide in student relations as well as patient care; she has relied on a professional but understanding attitude rather than iron-clad rules. Her intelligence, perfectionism, and patience as a nurse set a worthy pattern for nursing students. New Englander Mrs. Watson has been in Arkansas only two years; this is a short period in which to have contributed so much. We will always be proud to claim this Yankee as our own.

The students of the School of Pharmacy wish to dedicate their portion of the 1962 CADUCEUS to Mrs. Ishmael Tiger with sincere appreciation. Mrs. "T" has been Secretary to the Dean of Pharmacy ever since the School was established with the University of Arkansas. Her friendly hello, her ready smile for students and staff, her interest in every student, and her eager willingness to help have endeared her to each student. We know that pharmacy is better by having had her with us.

FROM THE CONSTITUTION

"ALL academic work in the University of Arkansas School of Medicine will be conducted under the honor system. Honest endeavor is a philosophy of life—a philosophy which is indispensable to a practice of medicine of the highest quality. For the purpose of encouraging honesty, investigating charges of dishonesty, and administering suitable punishment for students convicted of same, a Student Honor Council is established. This Council is an Organization of students for their own protection and seeks to preserve the integrity of the Honor System at this University. It aims to secure justice to any student accused of dishonesty, to vindicate his or her name if innocent, and if guilty, to protect the honor of the remaining students by his or her punishment as shall be set forth in the By-Laws of this Constitution."

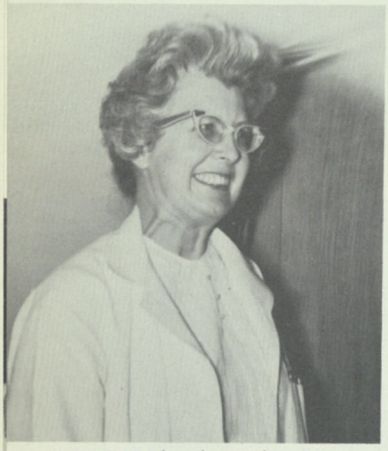
Around the Campus

Some schools use the library for study.

Their just *not* gram negative intracellular diplococci.



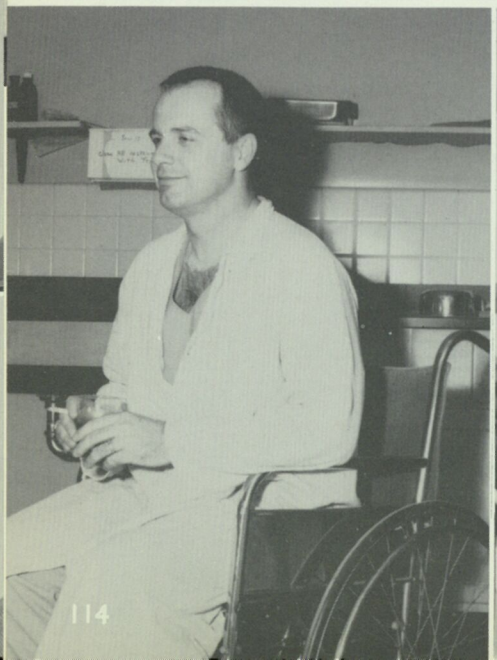
OOOOOOOh, don't do that!!

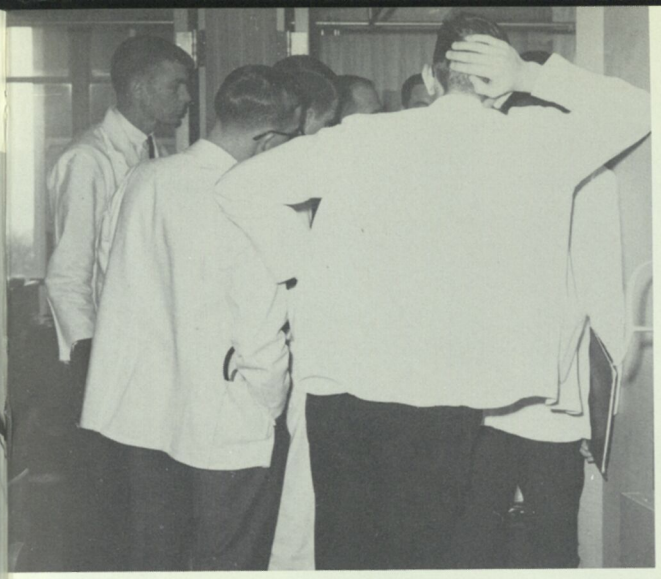
And have your membranes ruptured?

. . . and then you can come up to my apartment.

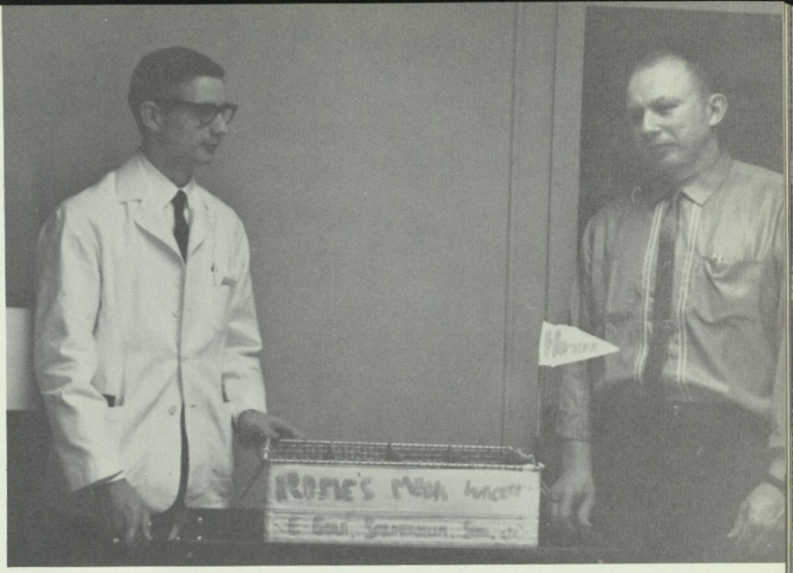
I thought she was your Patient!

Do you mean your stethescope didn't cost but $8?



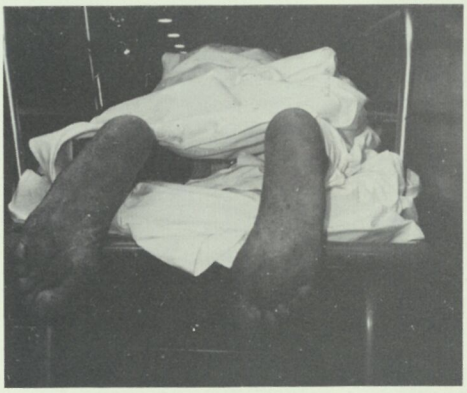


NEXT!!

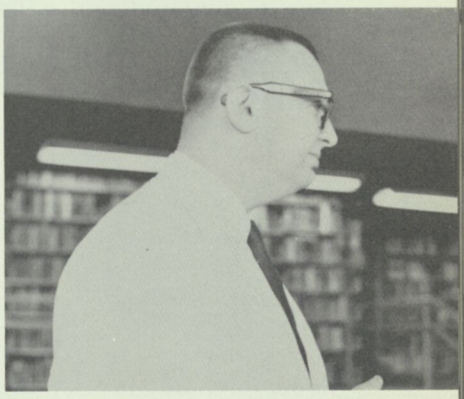


And then, Mr. Rosenfelt, you can enter your project in the *District* Science Fair!!!

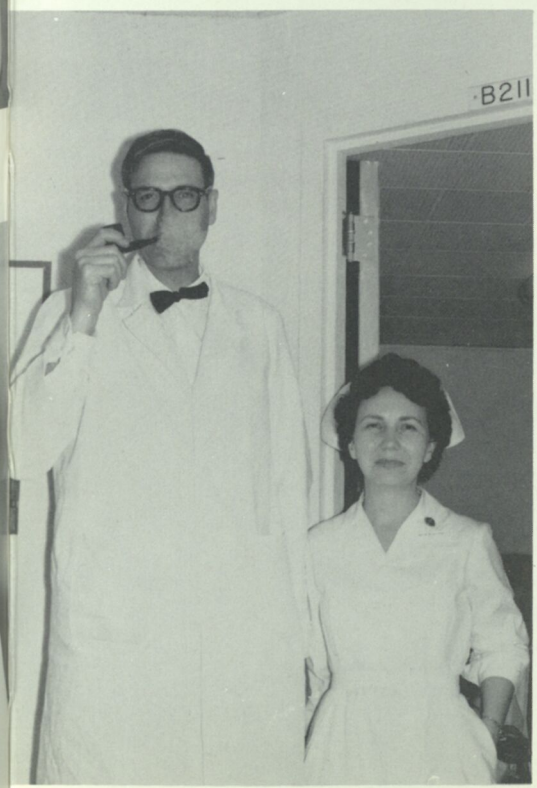
Where's his Hathaway shirt?



Path. specimen: two feet.

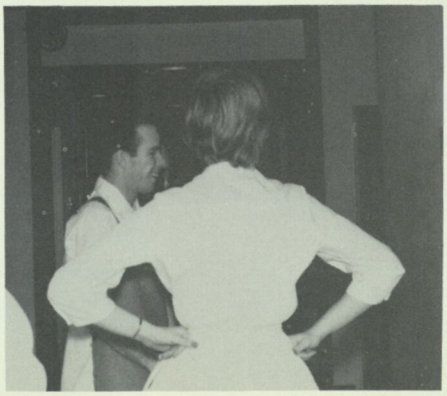


Germ Free?



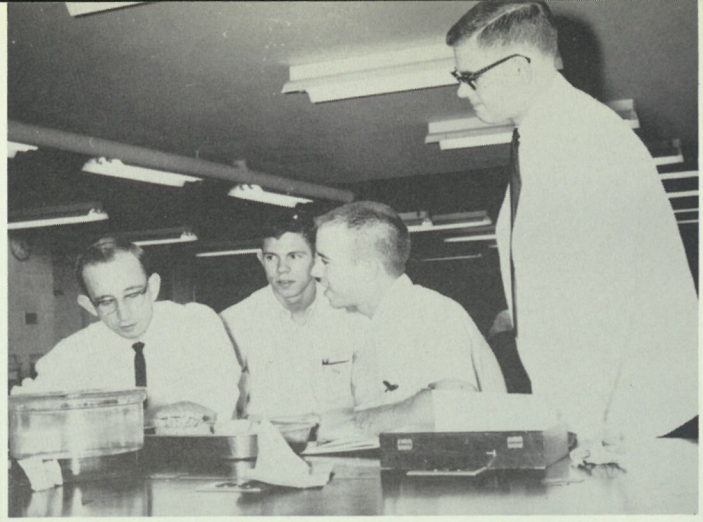
No, this isn't the endocrine clinic.

It's nice to feel safe.



It's too early!

Another Proposition?



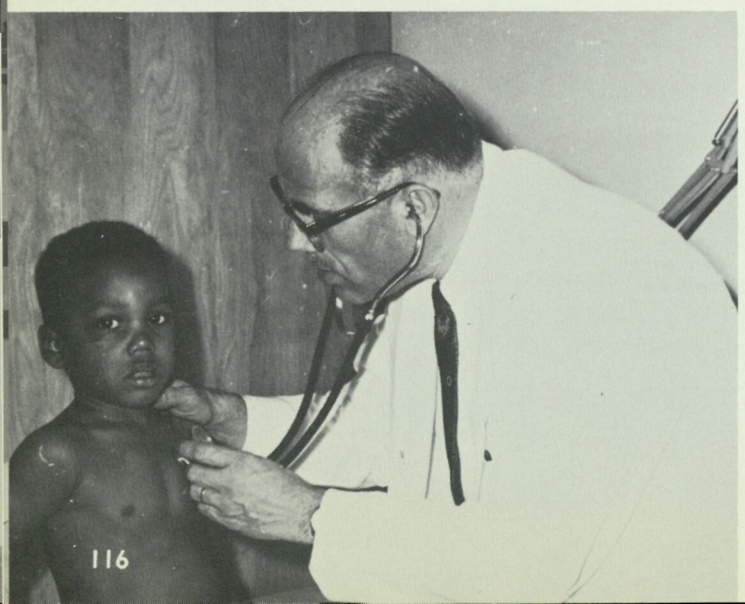
Let's go to Peck's!

The butcher, the baker, the candle stick maker.

Yes, that number five horse does look good.

HOWDY!

Grade five murmur nothing! What's his head circumference?



He obviously has paroxysmal nocturnal hemoglobinuria.
